Entire Athens office joins together to help make Christmas special for local families in need

2009 Christmas Outreach Touches Lives This Holiday Season

In a word... INCREDIBLE! That describes our recent company-wide Christmas Outreach work day! This holiday season, with the assistance of the HELP Center, Red Dot identified and "adopted" **66 local families** who just were not going to be able to

provide gifts to their children this Christmas without our help. So on Friday, December 18th our entire Athens office devoted its work day to buying gifts and meals, wrapping presents, preparing gift/food boxes, and

delivering them to all these Henderson County families. Making Christmas special for so many families was a huge undertaking for our Red Dot family to take on. But under the direction of the event planning

team (Hollie Fryar, Melinda Franks, Carrie King, Jennifer Mason, and Jocelyn Larkin) our Christmas Outreach work day went unbelievably smooth. The shop guys began making 150 delivery boxes at 6 am and then we had a large group descend upon our local Wal Mart to buy hundreds of gifts (we bought all the food the night before). All morning and after lunch we had folks wrapping all the presents and preparing the food and gift boxes for delivery to each family. Around 3 pm we had around 60 employees volunteer to drive all over Henderson County to personally deliver all the Christmas meals and gifts to each home. Needless to say, it was a very festive, fun-filled work day for all involved. The parents and children were so appreciative and it touched our hearts to have the privilege of giving back to our community. God willing, this will be a tradition that Red Dot will surely hold every Christmas for years to come! So many thanks to all who assisted in making our 100X Doing Good Christmas Outreach so impactful in 2009! Your willingness to help others made this event... INCREDIBLE!
